

Fund Update for the year ended 30 June 2019

SIL MUTUAL FUND EMPLOYER LUMP SUM SCHEME

SIL Employer Balanced Growth Fund

This fund update was first made publicly available on: 26 September 2019

What is the purpose of this update?

This document tells you how the SIL Employer Balanced Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Superannuation Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The SIL Employer Balanced Growth Fund invests mainly in growth assets (equities, listed property and listed infrastructure), with some exposure to income assets (cash and cash equivalents and fixed interest). The fund may also invest in alternative assets.

The fund aims to achieve a return (after the fund charge and before tax) on average over rolling three year periods that outperforms the composite index.

| | |
|---------------------------------|--------------|
| Total value of the fund (\$) | 17,150,490 |
| Number of investors in the fund | 164 |
| The date the fund started | 11 June 2008 |

What are the risks of investing?

Risk indicator for the SIL Employer Balanced Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 30 June 2019. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

How has the fund performed?

| | Average over past five years | Past year |
|---|------------------------------|-----------|
| Annual return (after deductions for fund charges and tax) | 7.77% | 5.90% |
| Annual return (after deductions for fund charges but before tax) | 8.80% | 7.21% |
| Market index annual return (reflects no deduction for fund charges and tax) | 9.32% | 8.76% |

The market index annual return is calculated using the target investment mix and the indices of each asset class.

Additional information about the market index is available in the statement of investment policy and objectives on the scheme register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2019.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

SIL Mutual Fund Employer Lump Sum Scheme: SIL Employer Balanced Growth Fund (continued)

What fees are investors charged?

Investors in the SIL Employer Balanced Growth Fund are charged fund charges. In the year to 30 June 2019 these were:

| | % of net asset value |
|--|-----------------------------------|
| Total fund charges¹ | 1.05% |
| <i>Which are made up of:</i> | |
| Total management and administration charges | 1.05% |
| <i>Including:</i> | |
| Manager's basic fee | 0.94% |
| Other management and administration charges | 0.11% |
| Total performance based fees | 0.00% |
| | Dollar amount per investor |
| Other charges | |
| Membership fee | \$0 |

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds).

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$590 (that is 5.90% of her initial \$10,000). Sarah also paid \$0 in other charges. This gives Sarah a total return after tax of \$590 for the year.
