

Fund Update for the year ended 30 June 2024

SIL MUTUAL FUND EMPLOYER LUMP SUM SCHEME

## SIL Employer Cash Fund

This fund update was first made publicly available on: 27 September 2024

### What is the purpose of this update?

This document tells you how the SIL Employer Cash Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Superannuation Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The SIL Employer Cash Fund invests mainly in cash and cash equivalents. Investments may include cash and cash equivalents issued by New Zealand-registered banks, the New Zealand Government, corporations or local authorities, or non-New Zealand governments.

The SIL Employer Cash Fund aims to achieve a return (after the fund charge and before tax) on average over rolling three year periods that is in line with the relevant market index.

Total value of the fund (\$)	2,356,959
Number of investors in the fund	34
The date the fund started	11 June 2008

### What are the risks of investing?

Risk indicator for the SIL Employer Cash Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-profiler/](http://www.sorted.org.nz/tools/investor-profiler/).

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 30 June 2024. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

## How has the fund performed?

	Average over past five years	Past year
<b>Annual return</b> (after deductions for charges and tax)	1.62%	3.98%
<b>Annual return</b> (after deductions for charges but before tax)	2.26%	5.57%
<b>Market index annual return</b> (reflects no deductions for charges and tax)	2.43%	5.85%

The market index annual return shows the return of the S&P/NZX Bank Bills 90 Day Index.

Additional information about the market index is available in the statement of investment policy and objectives on the scheme register at [www.disclose-register.companiesoffice.govt.nz](http://www.disclose-register.companiesoffice.govt.nz).

### Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2024.

**Important:** This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are the investors charged?

Investors in the SIL Employer Cash Fund are charged fund charges. In the year to 30 June 2024 these were:

	% of net asset value
Total fund charges <sup>1</sup>	0.57%*
<i>Which are made up of:</i>	
Total management and administration charges	0.57%
<i>Including:</i>	
Manager's basic fee	0.47%
Other management and administration charges	0.10%
Total performance based fees	0.00%

	Dollar amount per investor
Other charges	\$0

\*The manager expects the fund charges for the next scheme year will be less than the fund charges disclosed in this fund update because the manager's basic fee is to be reduced effective 1 August 2024 from 0.47% to 0.46% per year.

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds).

Small differences in fees and charges can have a big impact on your investment over the long term.

### Example of how this applies to an investor

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$398 (that is 3.98% of her initial \$10,000). Sarah did not pay any other charges. This gives Sarah a total return after tax of \$398 for the year.

## What does the fund invest in?

### Actual investment mix<sup>2</sup>

This shows the types of assets that the fund invests in.

■ Cash and cash equivalents: 100.00%

### Target investment mix<sup>2</sup>
