What is the purpose of this update?

This document tells you how the SIL Employer Balanced Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Superannuation Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The SIL Employer Balanced Growth Fund invests mainly in growth assets (equities and listed property), with some exposure to income assets (cash and cash equivalents and fixed interest). The fund may also invest in alternative assets.

The fund aims to achieve a return (after the fund charge and before tax) on average over rolling three year periods that outperforms the composite index.

Total value of the fund (\$)	15,808,643
Number of investors in the fund	173
The date the fund started	11 June 2008

What are the risks of investing?

Risk indicator for the SIL Employer Balanced Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

How has the fund performed?

	Average over past five years	Past year
Annual return (after deductions for fund charges and tax)	8.73%	9.28%
Annual return (after deductions for fund charges but before tax)	10.04%	9.66%
Market index annual return (reflects no deduction for fund charges and tax)	10.06%	10.31%

The market index annual return is calculated using the target investment mix and the indices of each asset class.

Additional information about the market index is available in the statement of investment policy and objectives on the scheme register at business.govt.nz/disclose.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2018.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.
