

Fund Update for the year ended 30 June 2021

SIL MUTUAL FUND EMPLOYER LUMP SUM SCHEME

SIL Employer Growth Fund

This fund update was first made publicly available on: 28 September 2021

What is the purpose of this update?

This document tells you how the SIL Employer Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Superannuation Investments Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The SIL Employer Growth Fund invests mainly in growth assets (equities, listed property and listed infrastructure), with a smaller exposure to income assets (cash and cash equivalents and fixed interest). The fund may also invest in alternative assets.

The fund aims to achieve a return (after the fund charge and before tax) on average over rolling three year periods that outperforms the composite index.

Total value of the fund (\$)	14,359,711
Number of investors in the fund	109
The date the fund started	11 June 2008

What are the risks of investing?

Risk indicator for the SIL Employer Growth Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there may be other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five years ended 30 June 2021. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

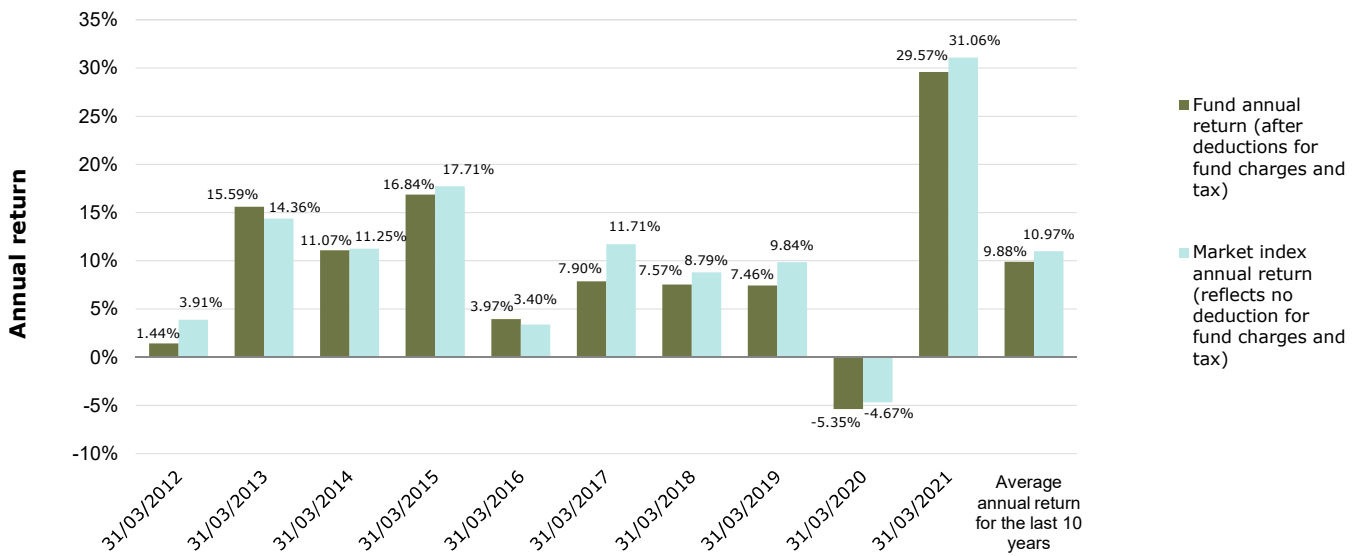

How has the fund performed?

	Average over past five years	Past year
Annual return (after deductions for fund charges and tax)	10.00%	22.76%
Annual return (after deductions for fund charges but before tax)	11.21%	25.27%
Market index annual return (reflects no deduction for fund charges and tax)	11.53%	22.66%

The market index annual return is calculated using the target investment mix and the indices of each asset class. The composition of the market index for this fund changed on 15 October 2020 due to a change in the underlying index for the New Zealand fixed interest asset class, and on 28 June 2021 due to a change in the target investment mix and the underlying index for the international fixed interest asset class.

Additional information about the market index is available in the statement of investment policy and objectives on the scheme register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 years, up to 30 June 2021.

Important: This does not tell you how the fund will perform in the future.

Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the SIL Employer Growth Fund are charged fund charges. In the year to 30 June 2021 these were:

	% of net asset value
Total fund charges¹	1.05%
<i>Which are made up of:</i>	
Total management and administration charges	1.05%
<i>Including:</i>	
Manager's basic fee	0.94%
Other management and administration charges	0.11%
Total performance based fees	0.00%
	Dollar amount per investor
Other charges	
Membership fee	\$0

Investors are not currently charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds).

Small differences in fees and charges can have a big impact on your investment over the long term.

Example of how this applies to an investor

Sarah had \$10,000 in the fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$2,276 (that is 22.76% of her initial \$10,000). Sarah also paid \$0 in other charges. This gives Sarah a total return after tax of \$2,276 for the year.
